Vanessa is diligent, hard working and conscientious about her work. She required extremely little management and guidance, being left to work on her own and continuing to make rapid progress on without input from management. She is clearly self-motivated and interested in the work. We would like to take this opportunity to formally thank Vanessa for the significant contribution she has made to our company in the short time that she has been here.

Some examples of projects carried out single handedly by Vanessa

Designed and wrote Updateable Page Software using PHP and My SQL running on NetBSD Unix.

Imported Access database into MySQL on Unix and designed web forms to query the database (www.designedtoinvolve.org.uk)

Converted www.blackwidow.co.uk from a Perl shopcart flatfile system to Perl shopcart MySQL system. With admin tool.

Converted www.scotdoc.co.uk to a MySQL shop cart system and rewrote a short Perl program to allow an administrator to update the database from a browser.

Set up My SQL shopping cart on www.behindthesofa.com

Designed www.synergy-int.net HTML and graphics
